TRAVEL INSURANCE

Alpha Travel has trusted the same insurance company since our inception to cover you for your travel insurance. Due to administrative and procedural developments, we have now changed our insurance provider, dated from 1st February 2009. Our provider is now Cover-More Insurance, which is a very well known company, and is used by many successful travel companies. We are very pleased with this change, as it means we can provide our customers with a high quality cover, and now offer more economical options.

With this change also comes a change in our commitment to you - should you receive a quote from another company for a similar insurance cover at a lower price, we will wherever possible either match your quote, or perhaps lower it. There may be some instances when this is not possible, but we invite you to give us the opportunity to match your quote where necessary. ○○○
